

X200XP

THERMAL-EYE X200XP

The **Thermal-Eye X200xp** is one of the smallest and lightest handheld thermal imaging viewers available on the market today. Approximately five inches in length and only thirteen ounces, the X200xp will easily fit into the palm of your hand or a pocket making it perfect for covert operations or fieldwork. It is designed for a variety of applications including public safety, security, and military use. The camera offers the operator a huge advantage providing the ability to see the unseen even on the darkest nights whether conducting a routine patrol, a fugitive search or a covert military mission. Covered by 1-year manufacturer warranty.
