

LRB

LASER RANGEFINDING BINOCULARS

The **LRB series** of rangefinders are built around two high-grade 7x40 and 7x50 binocular systems. The rangefinders feature a user-friendly interface and high quality optics. The basic and compact LRB7x40 model measures distances to objects up to 1500 meters away. The step-up model is a full size LRB7x50 binocular rangefinder with a 50mm objective lens that measures up to 1500 meters. There are two advanced models available, LRB 3000 PRO and LRB 4000 CI, based on LRB 7x40 and LRB 7x50 binocular system respectively. Systems incorporate all of the features required by today's military and law enforcement professionals including computer output, a compass, an inclinometer and speed measurement. Covered by 1-year manufacturer warranty.

LRB Rangefinding Binocular Kit Includes:

Rangefinder, Cleaning Cloth, 9V Battery, Soft Carrying Case, Neck Strap, Operator's Manual, Computer Interface Cable (LRB400CI)
