LASER RANGEFINDING MONOCULARS

The **LRM series** rangefinders are built around an ultra compact optical system with 7x magnification. The User-friendly interface and high quality optics allow the operator to take readings with only one hand. The basic LRM 1200 rangefinder measures the distance of objects up to 1200 meters away. The step up LRM 1500 rangefinder increases the range to 1500 meters and can be upgraded to the LRM 1500 SPD model that features speed measurement capability. The top of the line LRM 2500 CI has a range of 2500 meters and includes all of the features today's military and law enforcement professionals require including computer output, a compass, an inclinometer and speed measurement. Covered by 1-year manufacturer warranty.
